# CHARACTER DESIGN

Evelynn the guardiane of The Underworld and has just moved to Hollo Town. She is very smart, strong and very skilled with combat. She can be very timid and shy at first.

# Hollow Town

## Evelynn

She has a jewel that she always wears on her neck. That jewel is the source of most of her powers and that is how she controls the order and travels through the Underworld and Hollow Town.

The style of Evelynn has modern elements yet is very vintage looking. It was intended that way so her style could be balanced out with her world and the Underworld.

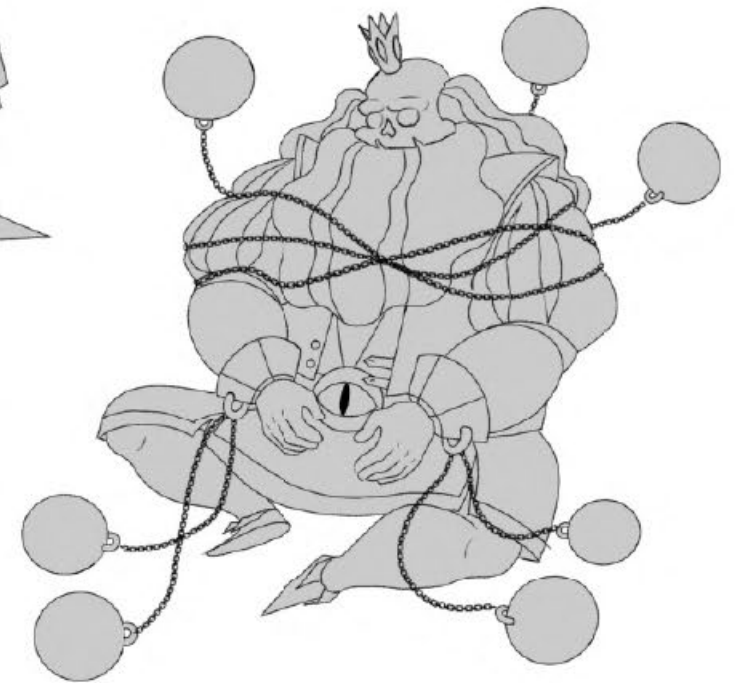

The King is the ruler of the underworld. He had been locked for centuries untill Evelyn freed him. He is very powerfull but is restricted to use all of his power.

He is a bit unstable after years of not socializing, he can be very soft and kind hearted but can get mad very easily.

Hallow  
Town

The King's style is inspired by mid the 18th century. The Underworld is more different then Evelyn's world. While the fashion sense has been changed, Because the King was locked up he is a bit more behind from the Underworld.
